“The difference was amazing!
I couldn't believe the extra RPM,
the smoothness and the lap time
improvement. The gearbox
whine was completely gone.”

XCELPLUS GEAR TREATMENT

300 mL
CONCENTRATE

SPECIFICALLY FORMULATED FOR GEARBOXES
Also suitable for differentials,
LSDs and transfer cases.

DOSAGE: 10% OF OIL VOLUME
For best results use 10% of the total
oil capacity.

THICKER FORMULATION
Thicker than Engine Treatment –
ideal for high load gear applications.

XCELPLUS IS A METAL TREATMENT
Bonds to metal surfaces to create a
protective layer – unlike additives, it
does not change the oil's properties.
